IVÁN JAVIER CABEZA GARCÉS

Full-Stack Engineer | React • Next.js • Node.js • NestJS • TypeScript

Cartagena, Colombia (Remote) • English: B2+ Professional • +57 3218816736
ivandex16@gmail.com • linkedin.com/in/ivancbgz • github.com/ivandex16

PROFESSIONAL SUMMARY

Full-Stack Engineer with over 4 years of experience building scalable production web applications, database architectures, and secure RESTful APIs. Specialized in TypeScript across modern frontend interfaces (React.js, Next.js) and modular backend services (Node.js, NestJS, Express). Proven background at SYSNET contributing to full-stack engineering across procurement and inventory ERP modules, designing omnichannel medical scheduling APIs (WhatsApp/Web), and maintaining clinical records systems with ACID persistence in PostgreSQL and SQL Server. Creator of AI-powered web applications (Google Gemini API), AWS certified, with robust containerized CI/CD practices (Docker, GitHub Actions).

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, SSR/SSG), TypeScript, JavaScript (ES6+), Redux Toolkit, Context API, Custom Hooks (useForm), Dynamic Forms, Tailwind CSS, Responsive UI, Web Accessibility (WCAG).

Backend & APIs: Node.js, NestJS, Express, TypeScript, RESTful API Design, GraphQL, Microservices, Clean Architecture, SOLID Principles, OpenAPI/Swagger, JWT, Granular RBAC, Input Sanitization.

Databases & Storage: PostgreSQL (Complex Queries, Indexing, Stored Procedures, ACID Transactions), SQL Server, MySQL, MongoDB, Redis Caching Strategies, Schema Migration.

AI Integration & Tooling: LLM APIs (Google Gemini, OpenAI), Prompt Engineering, Structured JSON Outputs, AI-Native Coding Workflows (OpenAI Codex, Claude Code).

Cloud, DevOps & Quality: AWS (Certified: EC2, S3, IAM, VPC), Docker, GitHub Actions (CI/CD Pipelines), Git, Linux, Jest, React Testing Library (80%+ Coverage), Code Reviews, Agile / SCRUM.

PROFESSIONAL EXPERIENCE

Full-Stack Engineer — SYSNET Ltda Cartagena, Colombia | March 2022 – Present

- **Full-Stack Procurement ERP Engineering:** Collaborated on frontend and backend engineering of the procurement and inventory inbound system using React, TypeScript, and Node.js/NestJS, implementing purchase order workflows, dynamic tax calculations, and atomic warehouse stock updates.
- **Enterprise Medical Scheduling API (SIOS):** Architected and deployed an internal Node.js REST API connected to an existing healthcare database (SIOS), enabling real-time appointment booking and schedule verification across external client web portals and automated WhatsApp chatbots.
- **Clinical Records Maintenance & Schema Evolution:** Provided production support and bug resolution for medical records modules, authoring and refactoring stored procedures while propagating new clinical fields and validation rules across patient templates.
- **Relational Data Modeling & ACID Integrity:** Structured database schemas, indexing strategies, and stored procedures in PostgreSQL and SQL Server; implemented strict ACID database transactions across inventory tables, eliminating data drift.
- **Component Performance & State Isolation:** Built dynamic forms in React with custom hooks (useForm), applying memoization boundaries (React.memo, useCallback) to reduce re-renders by 70% and eliminate latency during high-volume data entry.
- **Automated Testing & Containerized Delivery:** Maintained automated test suites with Jest and React Testing Library (80%+ coverage), standardizing containerized environments via Docker and CI/CD pipelines under SCRUM.

TECHNICAL PROJECTS & OPEN SOURCE

AI-Powered Gym Tracker & Fitness Assistant — Full-Stack App (Personal) github.com/ivandex16/app-IA-entrenador-gym

- Built and deployed an end-to-end fitness tracking web application using React, Express.js, and MongoDB, integrating Google's Gemini API to generate personalized workout routines and healthy recipe recommendations.
- Implemented live-timer workout logging, shareable weekly progress cards, an exercise directory with video demos, and an onboarding tour for first-time users.

EDUCATION & CERTIFICATIONS

Architecting Solutions on AWS — Amazon Web Services / Coursera (Authorized Credential) October 2026
Information Systems Analysis & Software Development (ADSI) — SENA, Colombia 2020 – 2022

LANGUAGES

Spanish: Native | **English:** B2+ Professional Working Proficiency (Technical & Conversational)
